Wizz Air has the highest EBITDA margin of the low-cost peer group (**1st of 3**), at **21.5%** against a median of **18.9%**.

Leverage is the weakest part of the comparison: net leverage of **4.28x** ranks **3rd of 3** against a peer median of **0.78x**, and FFO to debt ranks **3rd of 3** against a median of **35.6%**.

Cash liquidity to revenue and capex intensity both sit in the middle of the group, with cash liquidity to revenue ranking **2nd of 3**.

LIQUIDITY AND FUNDING

Cash and cash-like investments rose by **9.3%** to **EUR 1.7bn**, taking cash liquidity to revenue up by **1.7 points** to **33.0%**.

Debt due within one year rose by **40.0%** to **EUR 1.5bn**, so cash liquidity covers the near-term maturities only in part and the balance depends on refinancing.

Free cash flow after lease payments rose by **17.0%** to **EUR 143m**, but at **2.2%** of debt it was broadly unchanged and leaves little cash for debt holders once leases are paid.

Customer prepayments rose: contract liabilities increased by **27.1%** to **EUR 1.0bn**, and advance ticket cover rose by **8.2 points** to **58.4%**, so a larger share of liquidity is cash received for future travel.
