WATCH ITEMS

- Cash generation: free cash flow after lease payments fell by **89.8%** to **EUR 42.0m**, and FCF after leases to debt dropped by **3.6 points** to **0.4%**, so cash left for debt holders is thin against the investment programme.
- Liquidity: cash liquidity to revenue fell by **10.8 points** to **34.0%**, in line with the peer median of **34.0%** but lower than a year earlier.
- Maturities: debt due within one year of **EUR 1.8bn** is covered by cash and cash-like investments of **EUR 2.1bn**, but the buffer narrowed as cash fell by **14.8%**.
- Investment: capex intensity rose by **3.1 points** to **19.0%**, above the peer median of **16.1%**, which keeps pressure on free cash flow.
