ANALYST VIEW

A strong, regulated infrastructure credit. The EBITDA margin of 60.3% is the highest of the airport group, net leverage is 1.46x and interest coverage 14.72x. Moody's upgraded the rating and Fitch affirmed it with a stable outlook; the regulator set next year's average charge per passenger above this year's.
The investment cycle is the point to watch: capex intensity rose 2.6 points to 16.9% and free cash flow fell 10.2% to EUR 1.7bn, though FCF to debt of 22.9% is still the best in the group. Liquidity of EUR 4.3bn (68.4% of revenue, including EUR 2.2bn undrawn) covers the programme comfortably.
