Cash and cash-like investments rose by **36.0%** to **EUR 567m**, taking cash liquidity to revenue up by **9.1 points** to **53.9%**.

With the interest-bearing financial liabilities fully repaid, the cash pile covers the group's borrowings outright, so near-term maturities do not depend on new funding.

WATCH ITEMS

- Investment: capex intensity rose by **5.6 points** to **16.1%**, in the middle of the peer group, and net capex rose by **74.0%** to **EUR 169m**.
- Cash flow after leases: free cash flow after lease payments fell by **4.5%** to **EUR 275m**, so the cash left for debt holders narrowed even with net cash on the balance sheet.
- Traffic: traffic growth of **7.3%** was below the peer median of **8.3%** and the weakest of the group (**2nd of 2**).
- Regulation: airport charges are temporarily adjusted by average inflation, a rule that ends at the end of 2026, so aeronautical revenue per passenger of **EUR 15.57** depends on the tariff framework that follows.
